**Subject: Financial Institutions Alerted – Omega Villas Escalation Now Includes National Risk Exposure****Body:**

Dear Watchdog and Oversight Contacts,

Please find attached a formal notice I recently sent to a wide group of institutional stakeholders — including banks, title underwriters, mortgage insurers, and loan servicers — regarding the \$4.6M construction scope irregularities and systemic misconduct at Omega Villas Condominium Association.

This message was sent after state agencies repeatedly failed to act on evidence submitted. If Florida regulators continue to ignore these patterns, they should understand that institutional players are now involved and actively reviewing potential downstream liability.

The document is self-contained. No response is required, but awareness is essential.

Respectfully,

**Shawn Martin, MBA**

## Watchdog Alert #3 – Political Cover-Ups & Systemic Protection Now Evident in Omega Villas Crisis

---

**BODY:**

To State and Federal Authorities, Oversight Bodies, and Investigative Media:

This marks my third formal watchdog escalation. My name is **Shawn Martin**, a sitting Board Member of Omega Villas Condominium Association, and the whistleblower who has spent over almost 17 years documenting what began as HOA misconduct but has now evolved into a systemwide breakdown implicating multiple layers of Florida governance.

At this point, the pattern is most likely undeniable:

**Possibly cover-ups, deflections, and inaction now appear to be protecting politically connected individuals, entities, or interests.**

Despite extensive evidence, including:

- Over **120 videos** showing unsafe construction, resident intimidation, and regulatory evasion,
- **Confirmed code violations** and mounting fines from the City of Plantation,
- Formal complaints filed with **DBPR, the State Attorney, Florida Bar, and other agencies**,
- And **a community under siege** by retaliatory behavior and financial harm,

There has been **no decisive enforcement action**, no emergency intervention, and no accountability from those in positions of power.

---

### What I Now Believe:

As someone with a background in systems analysis and regulatory strategy, I recognize when operational failures point to something deeper. The persistent refusal of authorities to act — despite overwhelming public safety and financial risks — suggests this is no longer about isolated failures. Instead, this may reflect **a deliberate effort to shield high-level actors**, whether they be **donors, politically connected vendors, or institutional allies**.

---

### Key Escalation Points:

- **DBPR has confirmed a prosecutor is assigned**, but refuses to intervene.
- **City inspectors acknowledged major construction deviations**, yet permit enforcement remains stalled.

- **Police presence has been misused during community meetings**, yet Internal Affairs deferred responsibility.
- Multiple residents, including myself, have faced **targeted retaliation** after raising these issues.

### **What This Means Going Forward:**

This message — and the supporting materials — are now being shared with:

- HUD, Fannie Mae, Freddie Mac, and all other global conglomerate banks to financing institutions, which started with Banco Popular (\$60 Billion Enterprise)
- U.S. DOJ – Public Integrity Section
- FBI – Public Corruption and White Collar Crime Divisions
- Media partners, national and local
- State legislators, Inspector General offices, and relevant agency officials

No recipient of this message can now claim they were unaware of the ongoing crisis. The facts are documented. The public safety risks are escalating. The legal exposure is growing.

If the silence continues, then history will record this not as a failure to know, but a failure to act.

### **Attachment:**

### **Annual Election Complaint Closed, which was filed in 2024:**

### **Questions:**

- **Were any witnesses contacted or interviewed by your office?**
- **Was any independent review conducted to verify that the election process aligned with F.S. 718 and Rule 61B-23.0021?**
- **Do you know if DBPR has taken any substantive investigative steps in response to the procedural and transparency concerns clearly outlined?**

**From your dismissal, it appears either no investigation was conducted, or enforcement thresholds have been deprioritized in a way that leaves owners vulnerable and state oversight functionally absent.**

---

**Respectfully,**

**Shawn Martin, MBA**

## **Subject: Omega Villas Escalation – Clarification for Oversight Authorities and Formal Response to Internal Board Positioning**

**Dear Officials and Oversight Recipients,**

This message is to provide clarification and documentation in light of recent communications circulated internally by members of the Omega Villas Board, including unit owner Jan Costello, Treasurer and Director Blaire Lapides, and Attorney Rhonda Hollander, who represents the current Board.

I have attached a **certified letter** that has already been sent to the Board, Counsel, and the CAM addressing **alleged construction scope deviations, insulation and permitting concerns**, and a broader pattern of **governance issues**.

---

### **Context for Oversight Review**

While some internal communications have attempted to minimize these issues or frame them as interpersonal disputes, I want to be clear for the record that:

- These concerns are **documented through photos, 2008 to current permits to citation documentation to/from the City, and engineering clarification requests to the Board and Counsel**;
- They have been **escalated through formal filings with DBPR and the City of Plantation**;
- They are **supported by multiple exhibits** published at:

<https://hoajusticenow.com/omega-villas-condo-association/>

**And you can see how this has impacted my personal life and property to even civil rights issues:**

<https://youtu.be/cXN8LKJxwpU?si=ZLH4O1ownsLdCuS8>

**And patterns to police actions notated in the below potential RICO related Exhibits that I have created:**

<https://hoajusticenow.com/exhibit-u-pattern-of-off-duty-police-involvement-misuse-of-law-enforcement-at-omega-villas/>

## On Legal Representation

It is important to clarify that **Attorney Rhonda Hollander does not appear to represent the collective homeowners** of Omega Villas. She appears to represent the current rogue Board, whose actions have been the subject of multiple State complaints alleging **retaliatory rulemaking, obstruction of emergency repairs, and selective enforcement** of policies to other major property to financial concerns.

Attached is an internal email from Board Member Blaire Lapides confirming that **Ms. Hollander directly reviewed and approved the recently adopted Rules & Regulations** — a document now under DBPR complaint for potential statutory conflicts.

## Jan Costello's Certified Inquiry (Independent Owner Complaint)

For further context, I am also referencing a series of communications from fellow unit owner **Jan Costello**, who submitted a **certified inquiry to the Board on February 28, 2025**, seeking legal clarification on construction contract provisions — specifically regarding **window removal and reinstallation responsibilities**. As documented in her follow-up emails, the Board failed to provide a direct answer, instead deflecting through counsel. (*refer to the email strings below*)

Ms. Costello repeatedly expressed concern that the Association's legal counsel, **Attorney Rhonda Hollander**, appeared to act on behalf of the Board rather than unit owners, stating that owners were not receiving the required transparency or legal interpretation despite multiple formal requests.

Her concerns mirror those in my own filings, and further support the broader allegation that the Board and its legal advisor appear to have engaged in a **pattern of nonresponsiveness, procedural obstruction, and legal deflection**, at the direct expense of owner rights and statutory obligations.

## Rules & Regulations Complaint and Procedural Concerns

I have also included a copy of the **DBPR complaint summary** regarding the **alleged improper adoption and enforcement of the updated Rules & Regulations**. The provisions cited raise concerns under **F.S. 718.112 and 718.303**, including:

- Lack of potential transparency to owners,
- Alleged overreach requiring Board approval for adult residents,
- And potential disparate impact on protected classes.

Attached is the **draft Rules & Regulations document** itself, which is almost at the end of the Board of Directors process of being adopted and approved via legal review by Board counsel. I encourage all oversight recipients to review the document in its entirety.

---

### **Final Notice – Escalation Timeline**

As previously stated, if these matters are not acknowledged and addressed within **seven (7) days**, I will begin formal outreach to:

- **Mortgage lenders** with financial exposure to Omega Villas (including large lenders like Bank of America),
- **Fannie Mae and Freddie Mac**, and
- **Federal housing oversight bodies**, including HUD.

These communications will center on the **potential structural, permitting, and financial risk** now facing both homeowners and the secondary lending market due to lack of oversight and alleged misrepresentation of scope and compliance.

---

### **List of Attachments**

1. **Certified Letter to the Board of Directors**
  2. **Email from Board Member Blaire Lapides – Legal Review of Rules & Regs**
  3. **DBPR Complaint Summary – Rules & Regulations**
  4. **Draft Copy of Adopted Rules & Regulations (Omega Villas)**
  5. **Review Summary of Rules & Regs Parts 1 & 2**
  6. **Jan Costello's Email String listed below**
- 

To date, both the **Department of Business and Professional Regulation (DBPR)** and the **City of Plantation Police Department** have failed to take timely or substantive action on multiple filings to police reports requesting proper investigations — despite the evidence provided, the number of formal complaints submitted, and the clear escalation of risk to homeowners and property values. This level of inaction by both regulatory and law enforcement bodies now places the **burden of oversight** squarely on legislative and federal agencies to act where others have not.

In my opinion, this situation has all the bones of a national news story — not just because of what happened, but because of **who failed to act when the warnings were clear**. From regulatory inaction to local law enforcement silence, the story unfolding here at Omega Villas is no longer about a rogue Board — it's about a system that watched it happen dating back to 2007-2009 when I first began reporting these activities for investigation.

Sincerely,

**Shawn Martin, MBA**  
Board Member & Homeowner

Dear Patty,

If that is what it takes to derive the correct legal interpretation, I will do that. However, As President of the Board, you do have the fiduciary responsibility to the unit owners to follow through with the attorney to make sure that she has provided the information requested and for which she is paid. Florida Statutes 718.111 (1) (a) Condominium Act.

Therefore, if you don't, **you have not met your obligation according to the law.**

If everything in the contract is being followed to the letter of the law, counsel and the Board should have no reason not to supply this information to the owners who are paying a large amount of money for the work. I am becoming concerned that the counsel and the board seem to have no concern for the best interest of the unit owners and perhaps have a reason that the legal interpretation is not being supplied to the owners as required by law.

As a unit owner, I am entitled to transparency and responsiveness from the association under Florida Administrative Code 61B - 21.003 (1) and the Board President has a fiduciary duty to unit owners which includes ensuring that valid legal concerns are addressed. Since my question was referred to counsel, I respectfully request that you follow up with the attorney and ensure a complete response is provided. If she is not willing or able to provide the information, perhaps a second opinion would be an option for you.

You are already aware that there are many unit owners that I am speaking on behalf of who are concerned for the complete transparency of the Board regarding certain construction issues. It appears that you are being advised to **not be transparent and adhere to your fiduciary responsibility which is unfortunate.** I am determined to see that the contract is reviewed even if our counsel refuses to do so; and, as President, is your responsibility and duty. I'm sorry to hear that you don't have concern for your fiduciary responsibilities to the owners.

Hopefully you will read the above and reconsider what you are obligated to do in your position as President. As an owner, I will pursue the facts.

Have a nice night!

Thank you but for the record, I stated that **if** I am in violation with lower windows that I want a detailed description of the violation in the windows. I don't believe I requested anything from her. Her letter said that my windows would be removed and replaced and the cost billed to me. Anyone who is having their windows removed and not installed is entitled to an Engineer's report, signed by the same, advising why. Many of us can save money by performing maintenance on them or calling in a company to simply put in new weather stripping instead of replacing them, saving us thousands of dollars for windows and/or shutters.

Therefore, please don't process payment for her for any of these unwarranted threatening emails that she has sent to me. Someone who is not even in violation. Overreaching and offensive.

For the record, if my lower windows are determined to be uninstallable and in need of maintenance, I would expect that I will receive a violation notice from the board or management company and have time to cure the violation. I've already put the Board and Dorin on notice that my windows are not to be removed until all of the requested legal information is collected and resolved.

I am hoping this will be soon as none of us have the time for this . . .

Patty, thanks for the quick response. below is the hi lighted language that was not at all addressed by the attorney.

Regarding her emails, she has been sending me emails for 2 days regarding consequences of violations, including fines, assessments and foreclosures and I am not in violation of anything. I resent receiving these, I don't have the time for them, and they are unnecessary. I also object for her to be paid for sending them to me so I hope you don't authorize any payments to her for this nonsense.

The Engineers letter could have and should have been sent by the board, or the Engineer, so we don't have to pay the attorney to send it.

Please get back with me advising what you suggest or will be doing. Thank you.

"This letter is a follow up to my earlier requests to the Board and Austro Construction and the engineer, via email, regarding specifics in the construction contract signed by the Board with Austro Construction.

I would like to have clarification on the section of the contract in **the Scope of Work** regarding who is responsible for reinstalling any windows and doors that are removed by the General Contractor.

Owners have been informed that we have to hire a licensed company to reinstall the windows that were removed by the contractor but I don't see that spelled out in the contract. Please provide me with the Paragraph that requires us to do so.

This is the only language that I see regarding replacement of windows and it doesn't address this.

**2.4.4. Remove and replace windows in wood-framed walls where indicated by Engineer**

**2.4.5. Replace or repair window and door opening framing where indicated by Engineer**

I look forward to a response on this issue, thanks."

Patty and all,

I have been an owner at Omega for about 13 years and you have never heard a word from me until lately with the construction issues.

I am not a person who is hard to get along with and consider myself a professional business woman for at least 40 years. I am a CPM and an RPA and have worked for the biggest and the best with international and multi million dollar clients and projects in all phases of development and have never seen anything like the issues at hand here and the lack of desire to get legal and construction issues resolved in a reasonable time frame. I am appealing to the Board to seek the answers to the issues and if needed, bring in a qualified attorney and engineer who can. It shouldn't take months for resolve.

The Board signed the construction contract that was reviewed by the attorney yet there are so many mistakes in the contract as well as vagueness which still exist and obviously overlooked, causing current problems that need to be clarified one way or the other. As the governing board, it is your responsibility to seek resolve in an expedient manner for the owners. I again request that you do so in the interest of the owners so we can put this behind us finally.

As you can see by recent correspondence from our counsel and myself, emails are going back and forth with no apparent reason nor information. I assume you will be billed for this nonsense and I want you to know that as an owner I object to this nonsense and paying her for nothing. I am not in violation of anything and yet she is sending me emails just in case. . . ridiculous. I don't need to be threatened with foreclosure, and more assessments, by her when I have done absolutely nothing, and am not in violation of anything.

I sent my certified letter as required and DID NOT get an answer to my questions which is not acceptable. Why should I have to pay for an attorney out of my pocket when we have an attorney who can provide the owners with appropriate information.

I shouldn't have to do that if our association counsel was working for us and being on our side, providing the appropriate requested information. If she is unable or unwilling to do so, perhaps the Board should consider an attorney who will work for us instead of one who is working against owners. The owners and I are entitled to receive the legal interpretation that I requested, and we have not.

I have subsequently requested from the Board to follow up with her and ask her to answer the questions posed in my letter to her, but I have not received any response from the Board nor the requested information. Patty, as the President of the Board, isn't it your responsibility to see that our counsel answers questions posed in written correspondence in accordance with required policy?

I would appreciate a response from the Board only, telling me why we have counsel that we are paying who doesn't provide the information requested per procedure. I don't want to hear from her and rack up more bills

Your message to the group [inspectorgeneral@eog.myflorida.com](mailto:inspectorgeneral@eog.myflorida.com) couldn't be delivered.

The group [inspectorgeneral](mailto:inspectorgeneral@eog.myflorida.com) only accepts messages from people on its allowed senders list, and your email address isn't on the list.

sem2000s  
Sender

Office 365

inspectorgeneral  
**Action Required**

Sender not allowed

## How to Fix It

Ask the owner of the group to grant you permission to send to the group, and then try to send a message again. If the group belongs to a different organization than yours, contact the organization's customer service department for assistance. If the group is in your organization and you don't know who the group owner is, you can find it by doing the following in either Outlook on the web or Outlook:

- Open your Sent folder, and then select the original message.
- If you're using Outlook on the web, select the group name located on the To or CC line. If you're using Outlook, double-click the group name on the To or CC line.
- In Outlook on the web, from the pop-up dialog box, choose Owner. In Outlook, choose Contact. The owner's name is listed under Owner.

The owner of the group may have intentionally chosen to restrict who can send messages to it, and they may not want to adjust the existing restriction. In this case, you'll have to contact the group members by some other means, such as sending an email message to their individual email addresses or contacting them by phone.

## More Info for Email Admins

Status code: 550 5.7.124

This error occurs when the owner of the distribution group or security group has set up the group to accept messages only from certain addresses. Even a group owner may not be automatically granted permission to send messages to the group.

To fix this issue, the group owner must add the sender's address to the group's allowed senders list. Usually this issue can only be fixed by the group owner.

For more information and steps to fix this issue, see [Fix email delivery issues for error code 5.7.124 in Office 365](#).

**Subject: Financial Institutions Alerted – Omega Villas Escalation Now Includes National Risk Exposure**

**Body:**

Dear Watchdog and Oversight Contacts,

Please find attached a formal notice I recently sent to a wide group of institutional stakeholders — including banks, title underwriters, mortgage insurers, and loan servicers — regarding the \$4.6M construction scope irregularities and systemic misconduct at Omega Villas Condominium Association.

This message was sent after state agencies repeatedly failed to act on evidence submitted. If Florida regulators continue to ignore these patterns, they should understand that institutional players are now involved and actively reviewing potential downstream liability.

The document is self-contained. No response is required, but awareness is essential.

Respectfully,

**Shawn Martin, MBA**

## Watchdog Alert #3 – Political Cover-Ups & Systemic Protection Now Evident in Omega Villas Crisis

### BODY:

To State and Federal Authorities, Oversight Bodies, and Investigative Media:

This marks my third formal watchdog escalation. My name is **Shawn Martin**, a sitting Board Member of Omega Villas Condominium Association, and the whistleblower who has spent over almost 17 years documenting what began as HOA misconduct but has now evolved into a systemwide breakdown implicating multiple layers of Florida governance.

At this point, the pattern is most likely undeniable:

**Possibly cover-ups, deflections, and inaction now appear to be protecting politically connected individuals, entities, or interests.**

Despite extensive evidence, including:

- Over **120 videos** showing unsafe construction, resident intimidation, and regulatory evasion,
- **Confirmed code violations** and mounting fines from the City of Plantation,
- Formal complaints filed with **DBPR, the State Attorney, Florida Bar, and other agencies**,
- And **a community under siege** by retaliatory behavior and financial harm,

There has been **no decisive enforcement action**, no emergency intervention, and no accountability from those in positions of power.

### What I Now Believe:

As someone with a background in systems analysis and regulatory strategy, I recognize when operational failures point to something deeper. The persistent refusal of authorities to act — despite overwhelming public safety and financial risks — suggests this is no longer about isolated failures. Instead, this may reflect a **deliberate effort to shield high-level actors**, whether they be **donors, politically connected vendors, or institutional allies**.

---

#### ⚠ Key Escalation Points:

- **DBPR has confirmed a prosecutor is assigned**, but refuses to intervene.
- **City inspectors acknowledged major construction deviations**, yet permit enforcement remains stalled.
- **Police presence has been misused during community meetings**, yet Internal Affairs deferred responsibility.
- Multiple residents, including myself, have faced **targeted retaliation** after raising these issues.

#### 📢 What This Means Going Forward:

This message — and the supporting materials — are now being shared with:

- HUD, Fannie Mae, Freddie Mac, and all other global conglomerate banks to financing institutions, which started with Banco Popular (\$60 Billion Enterprise)
- U.S. DOJ – Public Integrity Section
- FBI – Public Corruption and White Collar Crime Divisions
- Media partners, national and local
- State legislators, Inspector General offices, and relevant agency officials

No recipient of this message can now claim they were unaware of the ongoing crisis. The facts are documented. The public safety risks are escalating. The legal exposure is growing.

If the silence continues, then history will record this not as a failure to know, but a failure to act.

#### Attachment:

#### Annual Election Complaint Closed, which was filed in 2024:

#### Questions:

- **Were any witnesses contacted or interviewed by your office?**
- **Was any independent review conducted to verify that the election process aligned with F.S. 718 and Rule 61B-23.0021?**

- **Do you know if DBPR has taken any substantive investigative steps in response to the procedural and transparency concerns clearly outlined?**

**From your dismissal, it appears either no investigation was conducted, or enforcement thresholds have been deprioritized in a way that leaves owners vulnerable and state oversight functionally absent.**

 **Subject: Omega Villas Escalation – Clarification for Oversight Authorities and Formal Response to Internal Board Positioning**

**Dear Officials and Oversight Recipients,**

This message is to provide clarification and documentation in light of recent communications circulated internally by members of the Omega Villas Board, including unit owner Jan Costello, Treasurer and Director Blaire Lapides, and Attorney Rhonda Hollander, who represents the current Board.

I have attached a **certified letter** that has already been sent to the Board, Counsel, and the CAM addressing **alleged construction scope deviations, insulation and permitting concerns**, and a broader pattern of **governance issues**.

---

### **Context for Oversight Review**

While some internal communications have attempted to minimize these issues or frame them as interpersonal disputes, I want to be clear for the record that:

- These concerns are **documented through photos, 2008 to current permits to citation documentation to/from the City, and engineering clarification requests to the Board and Counsel;**
- They have been **escalated through formal filings with DBPR and the City of Plantation;**
- They are **supported by multiple exhibits** published at:

<https://hoajusticenow.com/omega-villas-condo-association/>

**And you can see how this has impacted my personal life and property to even civil rights issues:**

## On Legal Representation

It is important to clarify that **Attorney Rhonda Hollander does not appear to represent the collective homeowners** of Omega Villas. She appears to represent the current rogue Board, whose actions have been the subject of multiple State complaints alleging **retaliatory rulemaking, obstruction of emergency repairs, and selective enforcement** of policies to other major property to financial concerns.

Attached is an internal email from Board Member Blaire Lapides confirming that **Ms. Hollander directly reviewed and approved the recently adopted Rules & Regulations** — a document now under DBPR complaint for potential statutory conflicts.

## Jan Costello's Certified Inquiry (Independent Owner Complaint)

For further context, I am also referencing a series of communications from fellow unit owner **Jan Costello**, who submitted a **certified inquiry to the Board on February 28, 2025**, seeking legal clarification on construction contract provisions — specifically regarding **window removal and reinstallation responsibilities**. As documented in her follow-up emails, the Board failed to provide a direct answer, instead deflecting through counsel. (*refer to the email strings below*)

Ms. Costello repeatedly expressed concern that the Association's legal counsel, **Attorney Rhonda Hollander**, appeared to act on behalf of the Board rather than unit owners, stating that owners were not receiving the required transparency or legal interpretation despite multiple formal requests.

Her concerns mirror those in my own filings, and further support the broader allegation that the Board and its legal advisor appear to have engaged in a **pattern of nonresponsiveness, procedural obstruction, and legal deflection**, at the direct expense of owner rights and statutory obligations.

---

## Rules & Regulations Complaint and Procedural Concerns

I have also included a copy of the **DBPR complaint summary** regarding the **alleged improper adoption and enforcement of the updated Rules & Regulations**. The provisions cited raise concerns under **F.S. 718.112 and 718.303**, including:

- Lack of potential transparency to owners,
- Alleged overreach requiring Board approval for adult residents,
- And potential disparate impact on protected classes.

Attached is the **draft Rules & Regulations document** itself, which is almost at the end of the Board of Directors process of being adopted and approved via legal review by Board counsel. I encourage all oversight recipients to review the document in its entirety.

---

## Final Notice – Escalation Timeline

As previously stated, if these matters are not acknowledged and addressed within **seven (7) days**, I will begin formal outreach to:

- **Mortgage lenders** with financial exposure to Omega Villas (including large lenders like Bank of America),
- **Fannie Mae and Freddie Mac**, and
- **Federal housing oversight bodies**, including **HUD**.

These communications will center on the **potential structural, permitting, and financial risk** now facing both homeowners and the secondary lending market due to lack of oversight and alleged misrepresentation of scope and compliance.

---

## List of Attachments

1. **Certified Letter to the Board of Directors**
2. **Email from Board Member Blaire Lapidés – Legal Review of Rules & Regs**
3. **DBPR Complaint Summary – Rules & Regulations**
4. **Draft Copy of Adopted Rules & Regulations (Omega Villas)**
5. **Review Summary of Rules & Regs Parts 1 & 2**
6. **Jan Costello's Email String listed below**

---

To date, both the **Department of Business and Professional Regulation (DBPR)** and the **City of Plantation Police Department** have failed to take timely or substantive action on multiple filings to police reports requesting proper investigations — despite the evidence provided, the number of formal complaints submitted, and the clear escalation of risk to homeowners and property values. This level of inaction by both regulatory and law enforcement bodies now places the **burden of oversight** squarely on legislative and federal agencies to act where others have not.

In my opinion, this situation has all the bones of a national news story — not just because of what happened, but because of **who failed to act when the warnings were clear**. From regulatory inaction to local law enforcement silence, the story unfolding here at Omega Villas is no longer about a rogue Board — it's about a system that watched it happen dating back to 2007-2009 when I first began reporting these activities for investigation.

Sincerely,

**Shawn Martin, MBA**

Dear Patty,

If that is what it takes to derive the correct legal interpretation, I will do that. However, As President of the Board, you do have the fiduciary responsibility to the unit owners to follow through with the attorney to make sure that she has provided the information requested and for which she is paid. Florida Statutes 718.111 (1) (a) Condominium Act.

Therefore, if you don't, **you have not met your obligation according to the law.**

If everything in the contract is being followed to the letter of the law, counsel and the Board should have no reason not to supply this information to the owners who are paying a large amount of money for the work. I am becoming concerned that the counsel and the board seem to have no concern for the best interest of the unit owners and perhaps have a reason that the legal interpretation is not being supplied to the owners as required by law.

As a unit owner, I am entitled to transparency and responsiveness from the association under Florida Administrative Code 61B - 21.003 (1) and the Board President has a fiduciary duty to unit owners which includes ensuring that valid legal concerns are addressed. Since my question was referred to counsel, I respectfully request that you follow up with the attorney and ensure a complete response is provided. If she is not willing or able to provide the information, perhaps a second opinion would be an option for you.

You are already aware that there are many unit owners that I am speaking on behalf of who are concerned for the complete transparency of the Board regarding certain construction issues. It appears that you are being advised to **not be transparent and adhere to your fiduciary responsibility which is unfortunate**. I am determined to see that the contract is reviewed even if our counsel refuses to do so; and, as President, is your responsibility and duty. I'm sorry to hear that you don't have concern for your fiduciary responsibilities to the owners.

Hopefully you will read the above and reconsider what you are obligated to do in your position as President. As an owner, I will pursue the facts.

Have a nice night!

Thank you but for the record, I stated that if I am in violation with lower windows that I want a detailed description of the violation in the windows. I don't believe I requested anything from her. Her letter said that my windows would be removed and replaced and the cost billed to me. Anyone who is having their windows removed and not installed is entitled to an Engineer's report, signed by the same, advising why. Many of us can save money by performing maintenance on them or calling in a company to simply put in new weather stripping instead of replacing them, saving us thousands of dollars for windows and/or shutters.

Therefore, please don't process payment for her for any of these unwarranted threatening emails that she has sent to me. Someone who is not even in violation. Overreaching and offensive.

For the record, if my lower windows are determined to be uninstallable and in need of maintenance, I would expect that I will receive a violation notice from the board or management company and have time to cure the violation. I've already put the Board and Dorin on notice that my windows are not to be removed until all of the requested legal information is collected and resolved.

I am hoping this will be soon as none of us have the time for this . . .

Patty, thanks for the quick response. below is the hi lighted language that was not at all addressed by the attorney.

Regarding her emails, she has been sending me emails for 2 days regarding consequences of violations, including fines, assessments and foreclosures and I am not in violation of anything. I resent receiving these, I don't have the time for them, and they are unnecessary. I also object for her to be paid for sending them to me so I hope you don't authorize any payments to her for this nonsense.

The Engineers letter could have and should have been sent by the board, or the Engineer, so we don't have to pay the attorney to send it.

Please get back with me advising what you suggest or will be doing. Thank you.

"This letter is a follow up to my earlier requests to the Board and Austro Construction and the engineer, via email, regarding specifics in the construction contract signed by the Board with Austro Construction.

I would like to have clarification on the section of the contract in **the Scope of Work** regarding who is responsible for reinstalling any windows and doors that are removed by the General Contractor.

Owners have been informed that we have to hire a licensed company to reinstall the windows that were removed by the contractor but I don't see that spelled out in the contract. Please provide me with the Paragraph that requires us to do so.

This is the only language that I see regarding replacement of windows and it doesn't address this.

**2.4.4. Remove and replace windows in wood-framed walls where indicated by Engineer**

**2.4.5. Replace or repair window and door opening framing where indicated by Engineer**

I look forward to a response on this issue, thanks."

Patty and all,

I have been an owner at Omega for about 13 years and you have never heard a word from me until lately with the construction issues.

I am not a person who is hard to get along with and consider myself a professional business woman for at least 40 years. I am a CPM and an RPA and have worked for the biggest and the best with international and multi million dollar clients and projects in all phases of development and have never seen anything like the issues at hand here and the lack of desire to get legal and construction issues resolved in a reasonable time frame. I am appealing to the Board to seek the answers to the issues and if needed, bring in a qualified attorney and engineer who can. It shouldn't take months for resolve.

The Board signed the construction contract that was reviewed by the attorney yet there are so many mistakes in the contract as well as vagueness which still exist and obviously overlooked, causing current problems that need to be clarified one way or the other. As the governing board, it is your responsibility to seek resolve in an expedient manner for the owners. I again request that you do so in the interest of the owners so we can put this behind us finally.

As you can see by recent correspondence from our counsel and myself, emails are going back and forth with no apparent reason nor information. I assume you will be billed for this nonsense and I want you to know that as an owner I object to this nonsense and paying her for nothing. I am not in violation of anything and yet she is sending me emails just in case. . . ridiculous. I don't need to be threatened with foreclosure, and more assessments, by her when I have done absolutely nothing, and am not in violation of anything.

I sent my certified letter as required and DID NOT get an answer to my questions which is not acceptable. Why should I have to pay for an attorney out of my pocket when we have an attorney who can provide the owners with appropriate information.

I shouldn't have to do that if our association counsel was working for us and being on our side, providing the appropriate requested information. If she is unable or unwilling to do so, perhaps the Board should consider an

attorney who will work for us instead of one who is working against owners. The owners and I are entitled to receive the legal interpretation that I requested, and we have not.

I have subsequently requested from the Board to follow up with her and ask her to answer the questions posed in my letter to her, but I have not received any response from the Board nor the requested information. Patty, as the President of the Board, isn't it your responsibility to see that our counsel answers questions posed in written correspondence in accordance with required policy?

I would appreciate a response from the Board only, telling me why we have counsel that we are paying who doesn't provide the information requested per procedure. I don't want to hear from her and rack up more bills for us unless she is willing to respond to the questions originally posed. I am looking to you as President for the appropriate guidance on the issue. I look forward to your response, not hers.

Very frustrated Owner!
